

Why stick to white?

The Liniar range comes in a wide variety of colours and finishes.

The basic Liniar PVCu profile is available in not just white, but also cream, caramel, brown and black substrates to offer a personalised appearance*

White | Cream | Caramel | Brown | Black

– or why not change its appearance completely by choosing one of our authentic foil finishes?

Liniar's coloured and woodgrain effect foils are factory fitted at the production stage, so you can rest assured of a perfect finish. Guaranteed for a minimum of 10 years, foiled PVCu is a low-maintenance alternative to timber as it won't rot or need repainting; all it requires is an occasional clean with soapy water.

Every Liniar product is available in a wide choice of coloured foils, applied in house using high tech equipment. In addition to standard colours, you could select a completely bespoke colour and finish from the huge range available. You can even choose to have the foil applied on just the interior or exterior if you prefer.

Please ask to see a Liniar foil swatch booklet to help you select the perfect colour choice.

For the range of foiled finishes available on the Alumina bi-fold, please see the separate swatch booklet or brochure.

Liniar's colour range

Neutrals

Greys

Woodgrains

Metallics

Primary

All colours are representative only - please ask to see a Liniar foil swatch booklet for accurate colours and finishes. * Not all Liniar products are available on all substrates - and some foils may require longer lead times to supply.
